HARITHA HARAM (2019-2020)

The principal Dr. A.M. Billah started this programme on 16-07-2019 with great enthusiasm and he said that our life continues until we breathe in and out. We owe our existence to the plant kingdom. Plants provide food to all terrestrial living beings. But no other organism can deplete the green cover like us. Plants not only absorb carbon dioxide but also other polluting gases like carbon monoxide, sulfur dioxide, and nitrous oxides. Trees are home to many birds, insects, and animals. They help in increasing the groundwater level and also prevent floods and landslides. Trees make the surroundings naturally cool and give an aesthetic look. He concluded his speech with 'Go Green Drive'.

HARITHA HARAM 2017

The principal Dr. A. Sambasiva Rao started this programme on 25-07-2017 with great enthusiasm and he said that our life continues until we breathe in and out. We owe our existence to the plant kingdom. Plants provide food to all terrestrial living beings. But no other organism can deplete the green cover like us. Plants not only absorb carbon dioxide but also other polluting gases like carbon monoxide, sulfur dioxide, and nitrous oxides. Trees are home to many birds, insects, and animals. They help in increasing the groundwater level and also prevent floods and landslides. Trees make the surroundings naturally cool and give an aesthetic look. He concluded his speech with 'Go Green Drive'.
